- Introduce practical measures designed to prevent the intrusion of pests and vermin into the premises of the zoo.
- Keep up-to-date records of the animals, including numbers of different animals, acquisitions, births, deaths, disposals and escapes, causes of deaths and the health of animals.

Stock List

A copy of the zoo's annual stock list, as defined in Section 9 of the Secretary of State's Standards of Modern Zoo Practice, must be forwarded to the Licensing Authority by 1 April of the year following that to which it relates.

Hazardous Animals

The Licensing Authority to be notified in writing at least one month in advance of the proposed addition of any animal listed in category 1 of the Hazardous Animal Categorisation (see Appendix 12 of the Secretary of State's Standards of Modern Zoo Practice), which is from a taxonomic family of which Category 1 species have not previously been kept in the zoo.

Temporary Removal of Animals from the Zoo

Such notification to be given as early as possible and, in any case, no later than twelve hours before the removal, unless the zoo operator and Licensing Authority mutually agree a shorter period. When giving notification, details of the destination and method of transportation of the animal and of the arrangements for its well-being, as well as for the safety of the public whilst it is away from the zoo, to be provided.

Escapes

In the event of any non-domestic animal escaping from the confines of the zoo, notification shall be made to the Licensing Authority as soon as possible, and, in any case, not later than twenty-four hours following the escape.
