

Site Proforma Methodology

Scoring

The site assessment criteria has been adapted from the matrix developed in the 2009 Eden SHLAA with enhancements to comprehensively cover all site based issues that may be encountered. Each site has been tested against this criteria to ensure a consistent approach

Criteria

The following site criteria have been omitted from the site assessments:

- Affordable Housing Need: It was noted that affordable need should be a key consideration in the site selection process, however this was excluded from the site proforma as it was difficult to translate a parish wide figure into a robust indicator. Ensuring that affordable housing need is addressed remains a key issue which will be reflected through the different stages of the document.
- Eden continues to liaise with utility providers to understand needs and imminent issues, however the evidence is not comprehensive. For this reason, the indicated has not been included.

Weightings

Each planning criteria in the matrix has been awarded a weighting score. The weightings reflect the relative importance of the indicator, and how it may constrain or enhance the development.

- It is noted that the weighting for (1E) has only been awarded a score of 2. This does not infer that the value of public consultation holds less weight, but reflects the age of the evidence and the likelihood that the policy stance and local circumstances will have changed since the last consultation. The value of public feedback will be given a greater value in later stages of this document.

NB

Suitability For Housing	Notes/Comments	Scoring (5=High, 1=Low)	Issue Weighting
1. Planning policy restrictions			
(1a) Current designation in Local Plan		3. Identified within the SHLAA or allocated as housing in Local Plan	2
		2. No designation	
		1. Allocated as employment, Schedule Ancient Monument or other allocations in Local Plan	
(1b) Sequential Test – Is the site greenfield / brownfield; within the settlement; on the edge of the settlement; or detached from the settlement? Are there any existing buildings on site which could be reused? If Greenfield, which agricultural land classification does the land fall under?		5. Brownfield site with buildings suitable for conversion 4. Brownfield site with buildings not suitable for conversion 3. Agricultural buildings / farmsteads 2. Greenfield sites with agricultural classification 3 - 4 1. Greenfield sites with agricultural classification 1 - 2	4
(1c) Planning History – Does the site have any Planning History? Is there known intention to bring this site forward? Is the site available? Are there any different classes of application known – Employment, retail etc		5. Site has approved planning application covering >60% of site area. 4. Site has live residential planning application covering >60% of site. Site suitable in principle. 3. No application, but known interest to bring site forward 2. Land owner unknown 1. Land owner currently not willing to bring site forward.	
(1d) Affordable Housing Need – What is the current Housing need for the area? (Refer to SHMA, or if available CRHT Parish Surveys).		N/A	N/A
(1e) Public Consultation – Has there been any public consultation comments regarding the site (Issues & Options stage, or through the application process)		5. Generally strong public consensus to see site developed. 4. General support for the site. 3. No strong opinions of site. 2. Generally has objections towards the site 1. Generally Strong objections towards development of site. 0. No consultations undertaken	
2. Physical Problems or Limitations			
(2a) Topographical constraints – are there any topographic constraints which might affect the density / layout of development? Are there opportunities to use the topography to maximise solar gain from potential housing?		3. Whole of site level 2. Potential issues with levels 1. Steeply sloping not developable for housing allocation.	3
(2b) Utilities – are there any visible services affecting the site e.g. pylons/substations? Have we received any comments from service providers on the site? Are there known infrastructure constraints, or deficiencies that may affect the site? Would the site impact upon the local water table, in terms of abstraction and surface run off?		3. Services on or adjacent to the site and current foul system has capacity 2. Potential issues with services or capacity of system. 1. No visible services on or adjacent to the site and the system has no capacity	
(2c) Flood risk – does the site comply with the sequential test / exceptions test contained within PPS25? Have we received any comments from the EA?		4. Site not in flood zones 2 or 3 with no nearby bodies of water. 3. Site not in flood zones 2 or 3 but bodies of water within 8m. 2. Part of site within flood zones 2 or 3. 1. Site in flood zones 2 or 3 and near bodies of water.	
		5. Well defined access served by good quality wide road. Clear visibility.	5

Suitability For Housing	Notes/Comments	Scoring (5=High, 1=Low)	Issue Weighting
(2d) Highways constraints – are there any visible highways constraints e.g. Visibility splays, new access required. Have we received any comments from CCC Highways regarding the site? Is the access identifiable? Would the development have any implications on existing road safety?		4. Access defined, however some issues need to be addressed. 3. Alternative accesses evident 2. No discernable access. 1. No discernable access, development would prompt calming measures. Unsuitable adjacent roads for walking/cycling.	5
(2e) Contamination – are there any known previous contaminative uses or visible signs of contamination? List any visible indicators on site, though main assessments to be undertaken by contamination officer.		3. No known contamination and none evident on site 2. Potential contamination linked to current / past use of site. 1. Known contamination on the site	4
(2f) Accessibility to services and public transport – does the site provide easy access to essential services and public transport? How accessible is the site to the centre of the settlement via walking and/or cycling? Are there any Rights of Way that pass through, or next to the site? Facilities – Bus, School, Village Hall, Public House, Shop/Post Office		5. All 5 facilities within village 4. 4 of the facilities 3. 3 of the facilities 2. 1 – 2 of the facilities 1. no facilities	4
3. Potential Impacts			
(3a) Character of Settlement – the site once developed would be compatible and not discordant with the character and setting of the settlement e.g. would the site follow historic patterns of development, or be unduly prominent or extend to far into the open countryside (refer to landscape assessment, where available)? Is the site compatible in terms of size for the settlement? Would the site be more suitable for another use, such as employment, retail or recreation? Does the site have any historical significance (historical land access – Unbuilt frontages)		4. Within village and respects village form 3. Within village but alters form 2. Extends the village 1. Outside village within open countryside or suitable for alternative use	4
(3b) Historic Landscape – Would the development affect a conservation area; listed building; areas of archaeological importance; ancient monuments? Are there any known past uses on the site, determined from historical records?		4. Site not in or within 250m of Conservation Area, Schedule Ancient Monument or Listed Building. 3. Site in or within 250m of a conservation area 2. Potentially affects listed building or Schedule Ancient Monument within 250m 1. Listed buildings on site or site on Schedule Ancient Monument.	4
(3c) Biodiversity – would the development of the site potentially affect biodiversity located on site – light pollution, displacement, harm to habitat? Are there any features in the surrounding area which may support corridors for biodiversity e.g. Adjacent woodland, river/wetland, agricultural buildings?		3. No biodiversity issues 2. Potential biodiversity issues 1. Within or adjacent a designated area	4
(3d) Open Space and Recreational Land – Would the development of the site affect any amenity open space or informal recreational land. Would there be requirement for additional open spaces (refer to Open Spaces Survey)		3. No need for additional open space 2. Need identified but site not suitable to satisfy need 1. Need identified and site is suitable to satisfy need	4
(3e) Environmental Designations – would the development of the site		3. Not in or within 250m of an environmental designation	

Suitability For Housing	Notes/Comments	Scoring (5=High, 1=Low)	Issue Weighting
Would the development of the site affect the AONB/SAC/SSSI/SPA/Priority Habitats and Species/Local Sites/ NNR's/LNR's?		2. Within 250m of an environmental designation 1. Within an environmental designation	4
(3f) Trees – Are there any TPO's on site or trees/hedgerows/woodlands that should be retained / Ancient Woodland? Are there any trees affecting the access? Are there any trees on site or the boundary which should be retained? NB – Please refer to Rob's note on trees.		3. Not within 200m of an ancient woodland or within 15m of a Tree Preservation Order or significant trees 2. Within 200m of an Ancient Woodland or within 15m of a TPO tree 1. Within an Ancient Woodland or TPO on site and/or has significant trees on the site	4
4. Environmental Conditions			
(4a) Note any adverse or beneficial environmental conditions / neighbouring land uses which would be experienced by prospective resident's e.g. road noise; railway lines; air pollution;odour pollution; neighbouring land uses; light pollution.		5. No issues on the site 4. One issue affects the site 3. Two issues affects the site 2. Three issues affects the site 1. Four of more issues affects the site	3
