

# CASTLE PARK THE VISION

CASTLE PARK DEVELOPMENT GROUP

The Castle and surrounding park will be a place of enjoyment, relaxation and recreation for all. It will be a vibrant, attractive, yet peaceful destination for the local community and visitors. The park will provide opportunities for people to enjoy, be involved in, learn about and appreciate the area's culture, heritage, leisure and recreational facilities, all set within a quality landscape that encourages biodiversity.

## Heritage

The heritage of the Castle and the park will be conserved and enhanced ensuring the historic legacy of the area is identified, recorded and protected. This will allow the community to engage, learn about and participate in the rich heritage of the area through innovative activities, events and exhibitions. Heritage will be understood, valued, cared for and enjoyed.

## Community Resource

Castle Park will be a public amenity accessible to all. It will offer a range of attractions, amenities, learning opportunities and events which will promote enjoyment, recreation, social and physical wellbeing. The park will be a well maintained and attractive environment for residents and visitors alike.

## Innovation

Castle Park will weave tradition with innovation. The conservation, enhancement and interpretation of the areas heritage will complement modern amenities such as sport, play, leisure facilities sports and play and events, allowing the park to be enjoyed by all. The park's origins, based on health, rest, relaxation and recreation will be preserved and enhanced with new approaches, designed for 21st century living.

## Quality Environment

Castle Park will be a destination of choice, offering a tranquil and restful environment in which all members of society can spend their leisure time. It will be well maintained, with environmental sustainability and protection at its core. Quality design, materials and local craftsmanship will be integral to the park. Planting will be well-managed, thoughtful and designed to encourage biodiversity and native flora and fauna to flourish.
