

Email 04 September 2016 from Programme Officer to representors

This email is addressed to the same group of representors as those mailed regarding previous hearing sessions – I now write to provide details of a third hearing session scheduled to commence on Monday 12 September at Penrith Town Hall.

Please find attached a programme and agenda for this latest series of hearings which potentially will run until Thursday 15th. As before the hearings will comprise round table discussions led by the Inspector including the Council and relevant representors. Additionally, the hearings continue to be open to any interested observers.

Representors who wish to forward comments prior to the start of the hearings should forward these as soon as possible directly to the Programme Officer – the Guidance Note already in the Examination library (EL1.004c) continues to provide relevant direction.

There have been a number of recently produced documents, most of which have recently been added to the Examination library webpage. In addition to the hearings programme, however, I am also taking the opportunity to attach two very recent items which will appear in the same Examination library very shortly. Representors and other interested parties are strongly encouraged to view all these new items and additionally to continue viewing the webpage on a periodic basis for latest information.

Please may I have your early contact if you wish to participate in these September hearings.

As always, please feel welcome to contact me if I may be of further assistance.

Thank you.
