**Cc:** Dan Mitchell  
**Subject:** Eden Local Plan

Dear Tony,

Attached are the HBF comments upon the Eden Housing Land Supply Statement / Key Hubs papers.

I am aware, through your email yesterday, that the Council has recently published a response to our submission on the SHMA Review and this will be debated on Monday. As you are aware I am unable to attend this session but would like to state that we consider our original comments, hearing statement and comments upon the SHMA Review to remain relevant. These should be taken as our position in relation to the housing requirement.

The Council's response does not raise any new issues and as such we remain of the opinion that the housing requirement is unsound as it is not based upon credible evidence. I look forward to the Inspector's views and thoughts upon this issue, hopefully a clear direction can be provided following the sessions next week. If more discussions (after Monday) are required, based upon new evidence, I would be happy to provide further input.

Kind regards

**Matthew Good**
