

Email 071016 from Council to Programme Officer re timetable update

By way of an update:

- *Luke Waterson is busy working on the OAN – he is hoping to send this to you by next Friday (15 October 2016)*
- *We are working on the Site Allocations for Penrith, Alston, Appleby and Kirkby Stephen – I would hope to be able to provide updates on this by the end of October.*
- *Key Hubs Allocations – we are awaiting additional resources to be agreed to assist with this task, so at present I am a little unsure of timetable. However, I know the Council is keen to have all work concluded by the end of the year.*
- *Major Modifications – this is up-to-date and ready to send to the Inspector when he is next available.*

We are still aiming to be ready for a Major Modifications consultation in January 2017.
