## 2. Introduction

- 2.1 This document sets out how Eden District Council has involved the communities and relevant bodies in the Habitat Regulations Assessment Revision Consultation of the Eden Local Plan. The Council has undertaken the procedure pursuant to Regulation 25 of the Town and Country Planning (Local Development) (England) 2012 Regulations (to be referred to as '2012 Regulations').
- 2.2 The consultation was undertaken following the recent HRA and People Over Wind, Peter Sweetman v Coillte Tearata High Court case and subsequent European Court judgement. This CJEU judgement changed the way the Habitats Directive is interpreted and means mitigation measures should now be assessed within the framework of an appropriate assessment. A small number of sites in Penrith take into account mitigation measures at the screening stage, therefore, it has been necessary to re-run the HRA for these sites and undertake an appropriate assessment to consider the mitigation measures, the results of which must be made available for consultation.
- 2.3 The document shows how the Council has complied with requirements of the 2012 Regulations and how it has undertaken engagement in accordance with the 2012 Regulations, specifically Regulation 22 (1).
- 2.4 In accordance with the requirements of Regulation 22 of the 2012 Regulations, this document details:

Which bodies and persons the Council invited to make representations under Regulation 18;

How these bodies and persons were invited to make representations under Regulation 18;

If representations were made pursuant to Regulation 20, the number of representations made and a summary of the main issues raised in those representations; and,

If no representations were made in Regulation 20, that no such representations were made.

### 3. The Consultees

3.1 The Town and Country Planning (Local Planning) (England) Regulations 2012 prescribe a number of Consultation Bodies with whom the Council should consult during each stage of the Local Plan making process. The list below identifies the organisations and other bodies that the Council considers to have an interest in the Local Plan process:

- Neighbouring Local Planning authorities;
- The Civil Aviation Authority;
- The Coal Authority;
- Cumbria Constabulary;
- Electricity North West Limited;
- Environment Agency;
- Health Service Providers;
- Highways Agency;
- Highways Authority;
- Historic England;
- Homes and Communities Agency;
- Natural England;
- Network Rail;
- Parish Councils within the District;
- The Clinical Commissioning Group;
- United Utilities
- Other relevant gas, electric, electronic communications network providers (such as Mono).

3.2 The Council maintains a consultation database, which includes the details of those who have registered an interest in the Local Plan and would like to be informed when it is available for consultation. A full list of all those consulted regarding Habitat Regulations Assessment Revision Consultation can be found in Appendix 1.

## 4. Methods of Consultation

4.1 The Council used a variety of consultation methods to disseminate information about the proposed Main Modifications to the Local Plan, in order to be as transparent and inclusive as possible. The methods of communication, in compliance with the Statement of Community Involvement, are set out in the table below.

### 4.2 Community Engagement Methods

<b>Communication Method</b>	<b>Action</b>
<b>Consultation documents</b>	Relevant documents were made available for inspection at the Town Hall and Mansion House in Penrith, Local Links in Kirkby Stephen and Alston, and the local libraries.
<b>Eden District Council website</b>	<p>The consultation documents and response forms, along with further guidance on completing the forms, were made available for viewing and downloading on the Council's consultation web page.</p> <p>A news article was posted on the Council's website at the start of December 2017 about the upcoming consultation.</p>
<b>E-consultation software</b>	An online consultation form using Survey Monkey was made available on the website.
<b>Media/Press</b>	Statutory advertisement in Cumberland & Westmorland Herald
<b>Letter/emails</b>	A letter or an email, according to the preference selected, was sent directly to consultees registered on the consultation database. See Appendix 2 for a copy of the letter. These detailed the dates of the consultation and where the relevant documents could be accessed.

## 5. Schedule of representations made to the Consultation

### 5.1 Comments received and Eden District Council's response

Consultee	Consultee's Comments	EDC response
Historic England	<p>Historic England is the Government's statutory adviser on all matters relating to the historic environment in England. We are a non-departmental public body established under the National Heritage Act 1983 and sponsored by the Department for Culture, Media and Sport (DCMS). We champion and protect England's historic places, providing expert advice to local planning authorities, developers, owners and communities to help ensure our historic environment is properly understood, enjoyed and cared for.</p> <p>Thank you for consulting Historic England on the above document. At this stage we have no comments to make on its content.</p>	No action required.
Natural England	<p>Thank you for your consultation on the above dated 13 July 2018 which was received by Natural England on 13 July 2018.</p> <p>Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.</p> <p>We have reviewed the changes to the Habitats Regulations Assessment for Eden Local Plan 2014-2032 made as a result of Case C-323/17 People Over Wind v Coillte Teoranta (also referred to as the Sweetman II Judgement) and make the following comments:</p> <ol style="list-style-type: none"> <li>1. Natural England are satisfied with the approach and structure taken in the revised HRA, which clarifies where there is a likely significant effect (LSE) upon the River Eden SAC and then separately considers how this LSE will be mitigated in the Appropriate Assessment.</li> </ol>	<p>EDC agrees – no action required.</p> <p>The Penrith Strategic Masterplan is currently a non-statutory planning document and is not relevant to this consultation. The Masterplan may form the basis for future statutory planning documents and a separate Habitat</p>

Consultee	Consultee's Comments	EDC response
	<p>2. The conclusions reached within the Appropriate Assessment are considered to be satisfactory, with mitigating Local Plan policies and considerations for project level HRA's being identified. Natural England consider this mitigation to be sufficient to conclude no likely significant effect upon the River Eden SAC/SSSI at Local Plan level.</p> <p>3. Natural England were previously engaged in an initial discussion regarding a Penrith Vision Masterplan (March 2018) which proposed an expansion of Penrith with new housing, employment, open space and road infrastructure. However, beyond this initial discussion we are not aware of any further details. This proposal has not been included within the in-combination assessment of this revised HRA, yet does have the potential to have significant impacts upon designated sites if progressed. Clarity should be provided on the position of this proposal and if being progressed, should be considered at the in-combination stage.</p> <p>We would be happy to comment further should the need arise but if in the meantime you have any queries please do not hesitate to contact us.</p>	<p>Regulations Assessment will be undertaken for these documents if necessary.</p>
<p>Cumbria County Council</p>	<p>I refer to your emailed letter dated 13 July 2018 and the attached Eden District Local Plan - Habitats Regulations Assessment Revision Final Report (July 2018). Thank you providing Cumbria County Council with the opportunity to respond to your consultation.</p> <p>I consider that the revised report (sections 1 to 7) comply with the requirements of the Habitats Regulations.</p> <p>However, the conclusions (section 8) require amendment. As noted in the third paragraph of 7.2.1, "The approach adopted for this Appropriate Assessment is to focus on avoidance of adverse effects on European site integrity rather than mitigation..." Therefore the conclusion should be amended to state that the full and effective implementation of policies of the Local Plan are considered sufficient to ensure that there will be no adverse effect on the features of the SAC.</p>	<p>The report does come to this conclusion, stating that if the local plan policies referred to in the Appropriate Assessment are adhered to then this mitigation is '<i>sufficient to prevent an adverse effect on site integrity</i>'. However,</p>

Consultee	Consultee's Comments	EDC response
	<p>The full and effective implementation of the local plan policies will ensure that the development of the allocated sites (in particular E4 Carleton, Penrith and MPC Skirsgill, Penrith) will avoid any adverse effects on European site integrity.</p> <p>Should you require any clarification, please do not hesitate to contact me.</p>	<p>EDC has no objections to incorporating the suggested wording to add further clarity to the conclusion.</p>
<p>Friends of the Lake District</p>	<p>Many thanks for consulting Friends of the Lake District on this.</p> <p>On this occasion, we have no comments to make.</p>	<p>No action required.</p>
<p>Environment Agency</p>	<p>Thank you for consulting the Environment Agency on the changes to the Habitats Regulations Assessment which forms part of the evidence base to the Eden Local Plan 2014 to 2032.</p> <p>We have no comments to make on these changes.</p>	<p>No action required.</p>
<p>Marine Management Organisation</p>	<p><b>Response to your consultation</b></p> <p>The Marine Management Organisation (MMO) is a non-departmental public body responsible for the management of England's marine area on behalf of the UK government. The MMO's delivery functions are; marine planning, marine licensing, wildlife licensing and enforcement, marine protected area management, marine emergencies, fisheries management and issuing European grants.</p> <p><b>Marine Licensing</b></p> <p>Activities taking place below the mean high water mark may require a <a href="#">marine licence</a> in accordance with the <a href="#">Marine and Coastal Access Act (MCAA) 2009</a>. Such activities include the construction, alteration or improvement of any works, dredging, or a deposit or removal of a substance or object below the mean high water springs mark or in any tidal river to the extent of the tidal influence. You can also apply to the MMO for consent under the Electricity Act 1989 (as amended) for offshore generating stations between 1 and 100 megawatts in England</p>	<p>EDC agrees – no action required.</p>

Consultee	Consultee's Comments	EDC response
	<p>and parts of Wales. The MMO is also the authority responsible for processing and determining harbour orders in England, and for some ports in Wales, and for granting consent under various local Acts and orders regarding harbours. A wildlife licence is also required for activities that that would affect a UK or European protected marine species.</p> <p><b>Marine Planning</b></p> <p>As the marine planning authority for England the MMO is responsible for preparing marine plans for English inshore and offshore waters. At its landward extent, a marine plan will apply up to the mean high water springs mark, which includes the tidal extent of any rivers. As marine plan boundaries extend up to the level of the mean high water spring tides mark, there will be an overlap with terrestrial plans which generally extend to the mean low water springs mark. Marine plans will inform and guide decision makers on development in marine and coastal areas. On 2 April 2014 the <a href="#">East Inshore and Offshore marine plans</a> were published, becoming a material consideration for public authorities with decision making functions. The East Inshore and East Offshore Marine Plans cover the coast and seas from Flamborough Head to Felixstowe. For further information on how to apply the East Inshore and Offshore Plans please visit our <a href="#">Marine Information System</a>. The MMO is currently in the process of developing marine plans for the South Inshore and Offshore Plan Areas and has a requirement to develop plans for the remaining 7 marine plan areas by 2021.</p> <p>Planning documents for areas with a coastal influence may wish to make reference to the MMO's licensing requirements and any relevant marine plans to ensure that necessary regulations are adhered to. For marine and coastal areas where a marine plan is not currently in place, we advise local authorities to refer to the <a href="#">Marine Policy Statement</a> for guidance on any planning activity that includes a section of coastline or tidal river. All public authorities taking authorisation or enforcement decisions that affect or might affect the UK marine area must do so in accordance with the <a href="#">Marine and Coastal Access Act</a> and the UK Marine Policy Statement unless relevant considerations indicate otherwise. Local authorities may also wish to refer to our <a href="#">online guidance</a> and the <a href="#">Planning Advisory Service soundness self-assessment checklist</a>.</p>	

Consultee	Consultee's Comments	EDC response
	<p><b>Minerals and waste plans and local aggregate assessments</b></p> <p>If you are consulting on a mineral/waste plan or local aggregate assessment, the MMO recommend reference to marine aggregates is included and reference to be made to the documents below:</p> <p>The Marine Policy Statement (MPS), section 3.5 which highlights the importance of marine aggregates and its supply to England's (and the UK) construction industry.</p> <p>The National Planning Policy Framework (NPPF) which sets out policies for national (England) construction minerals supply.</p> <p>The Managed Aggregate Supply System (MASS) which includes specific references to the role of marine aggregates in the wider portfolio of supply.</p> <p>The National and regional guidelines for aggregates provision in England 2005-2020 predict likely aggregate demand over this period including marine supply.</p> <p>The NPPF informed MASS guidance requires local mineral planning authorities to prepare Local Aggregate Assessments, these assessments have to consider the opportunities and constraints of all mineral supplies into their planning regions – including marine. This means that even land-locked counties, may have to consider the role that marine sourced supplies (delivered by rail or river) play – particularly where land based resources are becoming increasingly constrained.</p>

Dear [name],

### **Habitat Regulations Assessment Revision (2018) Consultation – Eden Local Plan 2014-2032**

We are writing to inform you that Eden District Council will shortly be undertaking a consultation on changes to the Habitat Regulations Assessment, which forms part of the evidence base to the Eden Local Plan 2014 to 2032.

We will be accepting representations regarding the Habitat Regulations Assessment revision (July 2018) from 9 am on 14 July 2018 to 9am on 4 August 2018.

The document will be available to view and download from the Council's website at: <https://www.eden.gov.uk/elpconsultation>. This document will also be made available at the Council Offices as well as the Local Links and Libraries across the district.

### **Background information**

Eden District Council took the decision to undertake this additional work in support of the Eden Local Plan following a change to the interpretation of the Habitats Directive. This came about following the recent Court of Justice of the European Union [CJEU] judgement of the People over Wind & Sweetman v Coillte Teoranta Case (C-323/17). The ruling stated that ruled that Article 6(3) of the Habitats Directive must be interpreted as meaning that mitigation measures (referred to in the judgement as measures which are intended to avoid or reduce effects) should be assessed within the framework of an appropriate assessment and that it is not permissible to take account of measures intended to avoid or reduce the harmful effects of the plan or project on a European site at the screening stage.

The ruling, and subsequent changes, affects two allocated sites in the Eden Local Plan. As a result, we have revised the Habitats Regulations Assessment for these sites and undertaken further assessment where necessary, the details of which have been published in the Habitat Regulations Assessment Revision (July 2018).

### **Notifications regarding Planning Policy**

You have been sent this notification because your details are on the Planning Policy consultation database. If you no longer wish to receive planning policy notifications please take no action and your contact details will be removed from our database on 31 August 2018.

However, if you would like to continue to receive updates about planning policy please let us know by completing the online form accessible via the consultation webpage <https://www.eden.gov.uk/elpconsultation>.

Or by completing the form below and returning it to us at

[loc.plan@eden.gov.uk](mailto:loc.plan@eden.gov.uk) or Planning Policy, Mansion House, Friargate, Penrith, CA11 7YG

Yours sincerely,

pp. 

Kevin Hutchinson

Planning Policy Manager
