

Email response 060317 from Programme Officer to Story Homes

Thank you for your recent email enquiring of progress with the Local Plan Examination.

Under the direction of the Inspector, I have been in contact with the Council about the progression towards a consultation exercise when proposed changes affecting soundness of the Plan may be put before representors and other interested parties. It is important to highlight that this is quite separate to the Main Modifications exercise which will follow later in the programme.

I have today had an email from Kevin Hutchinson at the Council confirming their intention to progress such a consultation exercise in the very near future and once one or two procedural matters have been concluded. Accordingly, I do not presently have an indication of timetable but I would hope to see this emerge over the next week or two.

Tony
